Ведущий дизайнер
Украина, Запорожье

Обязанности и достижения

Created and developed the visual design department. My key job responsibilities are team building, design process management, creative direction, learning process organizing. Implementation of new technologies and instruments. Improving visual and communication parts of the design. I work with adaptive web apps, native mobile apps, TV apps user interfaces. Typography addicted. A leader of regional verified Behance community. I provide the Human-Centered interaction design, the Business4Business solutions for all interfaces the design of which I create.

With the team, we have 9 Behance achievements in five galleries. We create logobooks, brand identity, visual communication solutions for our business partners.

Everyday tools set:

Create the UX design and prototyping with Axure, Marvel App, Invision App (main solution).

Delivery the UI design with Sketch App (main solution), Figma, Adobe PS, XD.

Interface animation with Principle.

Collaboration with developers teams through the Invision Inspect, Zeplin, Avocode.

Management with Jira, Trello, Asana, etc.

Most significant projects:

– The Hub—the digital ecosystem for hospitals and clinical departments. This system works in the 10+ medical institutions of USA. The FAU Tech Runway 2017 winner.

– Blockchain application for energy saving.

– User Interface for the cryptography protected system of the data storage and communication based on the quantum encryption principle.

Обязанности и достижения

Web and UI-designer:

My main specialization was the design of e-commerce web applications and platforms. I created business solutions for retail industries—clothing and accessories, watches and jewelry, auto parts and more.

Also, I designed e-learning platform and corporate websites for brands as Tokheim, Moniki, Casio, Invicta, Charles University and more.

UX-designer:

As a full-time freelancer, I worked on a UX-designer position for Family Real Estate, Paphos, Cyprus (real estate).

Октябрь 2009 –

Февраль 2012
(2 года и 5 месяцев)

New Web LLC

Менеджер проекта
Украина, Запорожье

Обязанности и достижения

Worked on the fast delivery online service. As a Project manager, I developed delivery service from 0 to 27 affiliates.

О себе

Hi, I am Alex, a Senior UI Designer with 7+ years experience, with a demonstrated history of working in the business and startup projects. I designed over 150 projects and having worked with brands such as Tokheim, Casio, Invicta, Charles University, МОНИКИ and more.

My key job responsibilities are team building, design process management, creative direction, learning process organizing. Implementation of new technologies and instruments. Improving visual and communication parts of the design. I work with adaptive web apps, native mobile apps, TV apps user interfaces.

I provide the Human-Centered interaction design, the Business4Business solutions for all interfaces the design of which I create.

Tools:

Creating the UX design and prototyping with Axure, Marvel App, Invision App.

Delivery the UI design with Sketch App, Figma, Adobe PS, XD.

Interface animation with Principle.

Collaboration with developers teams through the Invision Inspect, Zeplin, Avocode.

Management with Jira, Trello, Asana, etc.
