#### Обязанности и достижения

Ex-coworkers from Telegram had been working on messenger for INTERPOL, and asked me for help. So I decided to join them. We spent about 3 months working in Dubai, but sadly our investor got arrested. Later we continued to develop enterprise version and then got Apple as a client. – Project management. – Product development. – Prototyping iOS, Android and desktop apps. – Created its own iconography.

#### Обязанности и достижения

I worked on various types of challenges closely with developers in fast-paced product cycle. On our journey to perfection we changed thousands small details, conducted hundreds experiments in UX. After June 2014 I continued to work with Telegram team, but remotely. – Worked on experimental features in Android: GIF search, stickers, chat heads, etc. – Android app material redesign. – Each phase of the desktop app design: prototyping, icons, animations. – iOS and Windows Phone apps' detail changes. – Managing developers responsible for redesigns. – Usability testing.

## Обязанности и достижения

The first company I worked with is the largest European social network. At first I won few design contests and showed myself to advantage. — Web redesign. Designed features that significantly improved user satisfaction. — Product development and launch process of Windows 8 and WP apps. — Redesigned iconography and other graphics. Retina display support. — Worked on the new iOS and Android apps. — Created new satellite-products and features working closely with managers.
